

## The 15th Step Process

What is the 15th Step Process?

The 15th Step is a special place or level of consciousness where communication with the spirit guides and higher self becomes a reality. It is about spiritual growth and learning how to balance the material outer existence with a nonmaterial inner teaching. With the 15th Step process you can go directly into the inner unconscious and bring forth both Divine Healing and Divine Teaching.

The 15th Step is a simple, easy process that vibrates the physical body to the proper vibration to match the frequency of guides and masters of the Inner world. It is an actual place you visit, a bridge between the material world and the non material world where you can go to heal the cells of the body and begin to learn about the "other side", what it's all about and how to make your life work as an energy being in a human body.

The 15th Step uses the principles of science and energy to bring you to a place where physical and emotional balance are attained and you can get answers to your life questions. For more information, please visit [www.15thStep.com](http://www.15thStep.com) .
