This book is about life on this World, the beginning, the errors made, the thousands of years of trying to re-adjust the path of human existence and why consciousness is escalating as it is. It talks about who and what we are in this world and the Inner World and it explains what the World is doing, where it is heading and what is being done by Jesus and the other masters before we reach the year 2012.

There is much understanding for all in this little book. Since there are only eight years between now and 2012 and also quite a bit that needs to be done before then, I am taking this opportunity to announce that much of this information will be addressed during the 15th Step Seminar.

Dr. Costa, PhD presents the 15th Step seminar in a joyful, informative way that serves the needs of the therapist. He is the founder of the Institute of Thought of San Diego, and is the Director of the Transpersonal Hypnotherapy School, a California Licensed Institution, a Board member of IARRT, and a teacher of the Fourth Level Course. He is also the developer of The 15th Step Process, a method of learning to develop the self into being able to communicate with one's own Inner Truth and attain answers that resolve issues for the self.
